

## HTML CODE Home.html

## Upload.html

A screenshot of the Visual Studio Code editor interface. The left sidebar shows a file explorer with a project named "button". The main editor area displays the CSS file "button.css". The code defines a class ".my-cta-button" with various styling properties. The background image is a placeholder URL from Unsplash. The status bar at the bottom indicates the active file is "button.css" and the current position is line 76, column 10.
